

INTERMEDIATE GATEBALL SKILLS, DRILLS, TACTICS & STRATEGY

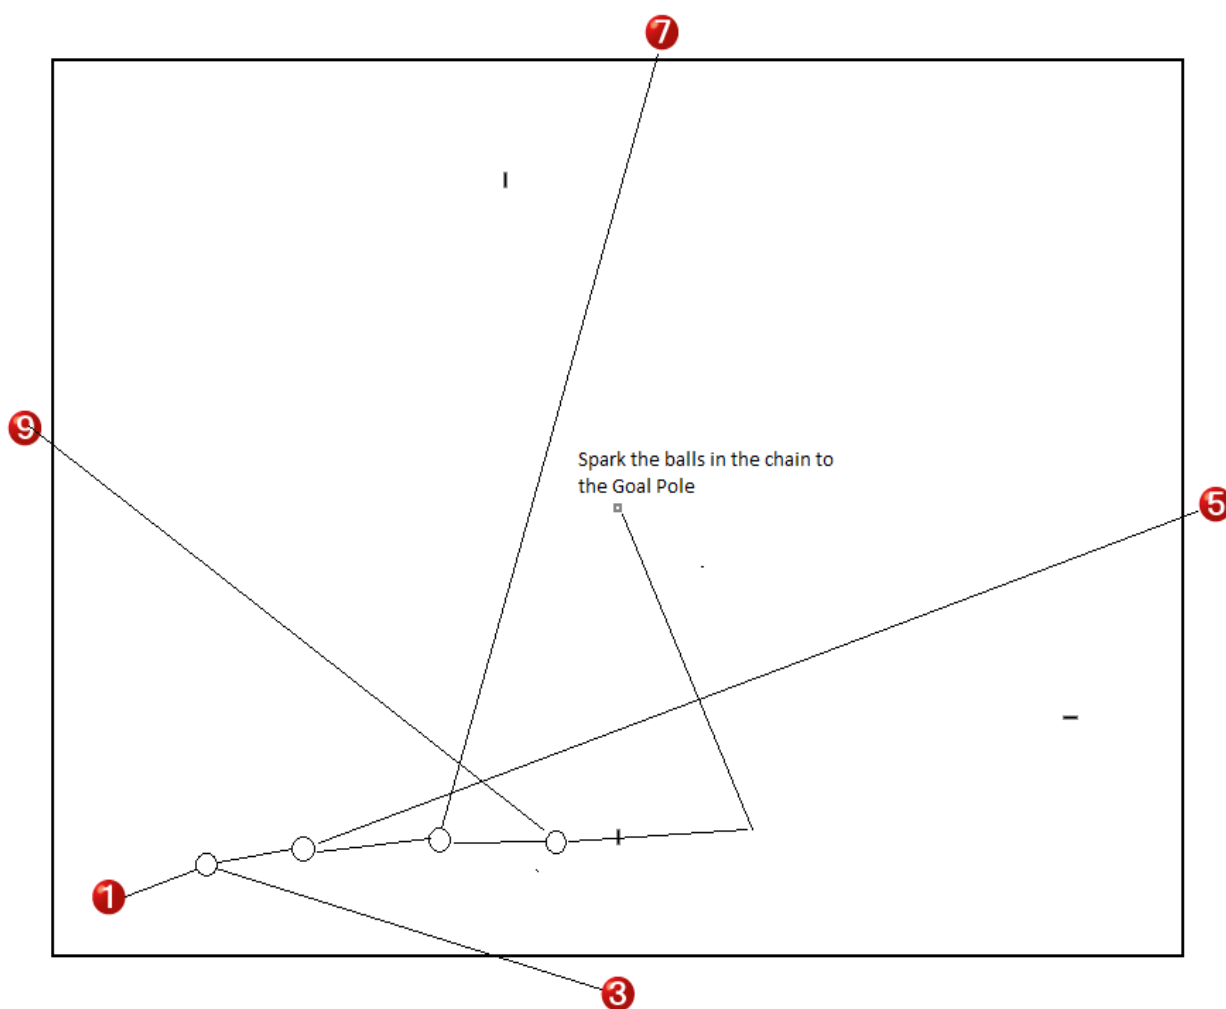

13 Ladders / Chains

Choose five red or white balls. Position the first ball in corner 4.

The four other balls should be placed in the middle of each side of the court. Play in the four balls from the middle of each side to build a ladder or chain for the first ball in the corner so it can make the gate.

Use the ladder for the first ball to pass gate 3 and then stroke it to the goal pole. Stroke the touched balls as close to the goal pole as you can. Spark all remaining balls on the goal pole with the next ball's turn.

Make it a game: One player sets up as shown above, the other sets up in a mirror image at gate 2. Enact the scenario scoring 1 point for each ball that ends up 1m from the Goal Pole

Change it: Eg build a ladder across the court
